New Good Health PPO Plans available July 1, 2011

Rocky Mountain's Good Health PPO Plans includes three new plan designs providing 100 percent coverage after deductible for many services.

Good Health PPO 100 Plans offer the simplicity of an HDHP plan design with copayments for services used the most:

- Office Visits
- Diagnostic Testing
- Urgent Care/Emergent Care
- Prescription drugs

Good Health PPO 100 Plans offer the same 100 percent coverage for preventive care services, our tobacco cessation benefit, and both brand name and generic drug options. The employee-choice option for prescription drugs allows employers to offer one plan and give employees the choice to select generic-only or brand-name drug coverage, which ever meets their personal needs and budget.

An overview of the new Good Health PPO 100 Plans follows.
